### STEP 4: CHOOSE YOUR INVESTMENT FUNDS

In this plan the investment risk in your chosen investment portfolio is borne by you. This means that the premiums you pay in this plan are subject to investment risks associated with the capital markets. The unit prices of the funds may go up or down, reflecting changes in the capital markets.

So, to balance your level of risk and return, making the right investment choice is very important and you are responsible for the choices you make.

We have 7 funds that give you:

- The potential for higher but more variable returns over the term of your policy; or
- More stable returns with lower long-term potential.

Your investment will buy units in any of the following 7 funds designed to meet your risk appetite. All the investment funds available to HDFC Unit Linked Young Star Plus II will be available to you. All units in a particular fund are identical.

The seven funds available currently are as follows

FUND*	DETAILS	ASSET CLASS				RISK & RETURN RATING

\* Notes on the Funds Available: We will manage the investment in each fund so that the proportion of each Asset Class is ALWAYS within the ranges given. Option to use derivatives: All funds other than Liquid Fund II and Stable Managed Fund II will be allowed to use derivatives as and when regulations allow the same. \*\* "Money Market Instruments" includes Liquid Mutual Funds, commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time. \*\*\* Bank Deposits means deposits issued by any Primary Dealer or Non-Banking and Banking Financial Company approved by the Reserve Bank of India or by any other Public Financial Institutions or by Housing Finance Companies approved by the National Housing Bank. • Your investment choices must follow IRDA regulations. This means that some investment choices will not be permitted; in particular we do not allow more than 10% of any unit allocation to be in the Liquid Fund II. • **The past performance of any of the funds is not necessarily an indication of future performance. Unit prices can go up and down. No fund offers an assured return. The names of the funds we offer under this plan do not, in any way, indicate the quality of the plan, its future prospects or returns. • None of the funds participate in the profits of HDFC Standard Life Insurance Company Limited. • Investment professionals regard money market instruments as unsuitable investments for the long term and are generally used for the short term. This is because money market instruments have relatively stable returns and offer high degree of capital safety. However, they tend to offer lower returns over the long term compared to other investments**

#### FLEXIBLE OPTIONS FOR YOUR CHILDREN'S NEEDS

We have designed the plan to meet your children's needs now and in the future. You can use these features to improve the investment returns.

FLEXIBLE OPTIONS	BENEFITS
<b>Single Premium Top-Up</b>	Once we have issued your policy, you can invest more than your regular premiums at any time, subject to the following conditions: <ul style="list-style-type: none"> <li>You have paid all your regular premiums to date#.</li> <li>Your total Single Premium Top-Ups## at any time is not more than 25% of your total regular premiums paid to date.</li> <li>Each Single Premium Top-Up amount is at least Rs. 10,000.</li> </ul>
<b>Premium Changes</b>	<ul style="list-style-type: none"> <li>You can increase your regular premiums at any time as long as your policy maintains at least the minimum level of life cover. • The minimum increase in regular premium amount is only Rs. 5,000 per year and any changes to premiums will take place from the next premium due date. • You can reduce your premiums any time after at least three full year's premiums have been paid. Your reduced premium will still need to comply with the maximum and minimum levels of Sum Assured as specified by us and the Unit Linked Guidelines. You may also incur future Surrender Charges. Any reduction in premium will be subject to the minimum premium requirement specified by us. • If you stop^ paying premiums after at least 3 years premiums are paid, your policy will be converted to a paid up policy. • Life Cover will continue as long as the policy is in force (premium paying or paid up). All applicable charges will continue to be levied. • You may only restart your regular premiums within a specified period.</li> </ul>
<b>Changing your Investment Decisions</b>	You can change your investment fund choices** in two ways: <ul style="list-style-type: none"> <li><b>Switching:</b> You can move your accumulated funds from one fund to another anytime.</li> <li><b>Premium Redirection:</b> You can pay your future premiums into a different selection of funds, as per your need.</li> </ul>

# Your policy has a grace period of 15 days. ## We will count only Single Premium Top-Up amounts which did not attract any additional life cover. ^ Your policy must maintain the minimum fund value. \*\* All the investment funds available to HDFC Unit Linked Young Star Plus II will be available to you.

#### LOYALTY UNITS

At the end of every policy year we will increase the number of units in each of your funds by **0.10%** as long as your policy is in force (premium paying or paid up). The compounding effect of these regular additions is expected to boost your final maturity value.

#### ELIGIBILITY

The age and term limits for taking out a HDFC Unit Linked Young Star Plus II are as shown below:

BENEFIT OPTIONS	TERM PERIOD (Yrs.)		AGE AT ENTRY (Yrs.)		MAXIMUM AGE AT MATURITY (Yrs.)
	Minimum	Maximum	Minimum	Maximum	
<b>Life Option</b>	10	25	18	65	75
<b>Life and Health Option</b>	10	25	18	55	65

## ACCESSING YOUR MONEY

### a) On Maturity

Your policy matures at the end of the policy term you have chosen and your death and other risk covers ceases. You may redeem your balance units at the then prevailing unit price and take the fund value with you.

However, you also have the option to take your fund in periodical instalments\* over the period which may extend to 5 years. This is called the "Settlement Option".

Your money will remain invested in the funds chosen by you and is subject to the same investment risks as during the policy term. During such period, we will continue to deduct charges other than the risk benefit charges such as the mortality charge (please see the "Charges" section below).

At the end of this 5-year period, we will redeem the balance units at the then prevailing unit price and pay the fund value to you.

Your policy will terminate the moment the value of balance of your units in all the funds falls below the minimum fund value of 150% of the Original Annualized Premium. No surrender charge will be applicable during the Settlement Period. The benefit payable will be the Unit Fund Value, less any applicable charges, at the date of termination. This is to ensure that at least 100% of the original annualised premium is returned to you, as required by our regulator.

\* Currently this minimum installment amount is Rs. 10,000.

### b) On Death

In case of your unfortunate demise during the policy term, we will:

- Pay the Sum Assured you had chosen to the beneficiary AND
- In Double Benefit payment - Continue to pay 100 % of the original regular premiums towards your policy as and when the premiums are due, on an annual basis.
- In Triple Benefit payment - Continue to pay 50% of the original regular premiums towards your policy and pay the balance 50% of the premiums to the beneficiary as and when the premiums are due, on an annual basis.
- In the event of a claim during the minority of the beneficiary/nominee, the appointee will not have the right to do any policy servicing especially fund related servicing or change the beneficiary.

Any Critical Illness Cover terminates immediately.

### c) On Critical Illness

In case you are diagnosed with any of the critical illnesses covered (See Terms & Conditions) before the end of policy term, we will

- Pay the Sum Assured you had chosen to the beneficiary AND
- In Double Benefit payment - Continue to pay 100% of the original regular premiums towards your policy as and when the premiums are due, on an annual basis.
- In Triple Benefit payment - Continue to pay 50% of the original regular premiums towards your policy and pay the balance 50% of the premiums to the beneficiary as and when the premiums are due, on an annual basis.

The Death Benefit Cover terminates immediately.

### d) On Surrender or Partial Withdrawal

Insurance plans are long-term investments with significant tax advantages. Neither the IRDA nor we view them as short-term plans. Therefore, there you are encouraged to pay the original regular premium for at least the first 5 policy years. If you do not you will incur a charge. In addition, you have no access to the funds in your policy in the first three policy years.

If you do not pay the original Regular Premiums due in the first 3 years your life cover will cease and the value of the units in the fund after the deduction of the surrender charge will cease to be invested and will be held separately by us. This amount will be paid out to you only at the end of the third year of your policy or the end of the 2 years after you stop paying premiums into your policy, whichever is later.

If you surrender your policy before three years have passed, your life cover will cease and value of the units in the fund after the deduction of the surrender charge will cease to be invested and will be held separately by us. This amount will be paid out to you only at the end of the third year.

If you choose to surrender the policy, any time after three years have passed the surrender value will be the value of the units in the fund after the deduction of the surrender charge.

If your fund value is less than the minimum fund value of 150% of your original regular premium at any time after three policy years have passed, we will cancel your policy whether or not it is premium paying. This will ensure you receive at least 100% of the original annualised premium.

Please see the "Charges" section for details of the Surrender charge.

You can make lump sum partial withdrawals from your funds after 5 years of your policy provided:

- The minimum withdrawal amount is Rs. 10,000.
- After the withdrawal, the fund does not fall below the minimum fund value.
- After the withdrawal, the fund does not fall below the sum of top-up premiums paid in the preceding three years, ignoring all top-up premiums paid in the three years before the maturity date.

## BENEFICIARIES

The beneficiary is the sole person to receive the benefit under the policy. Where the beneficiary is less than 18 years of age, the benefit will be paid to the Appointee.

We envisage that the majority of our policyholders would be buying the policy for the benefit of their children. Hence the beneficiary would be the child in all these circumstances. We do however allow the policy to be taken for the benefit of any other person as well, subject to underwriting as specified from time to time.

## CHARGES

The charges under this policy are deducted to provide for the cost of benefits and the administration provided by us. Our charges, when taken together, are structured to give you better returns and value for money over the long term.

### PREMIUM ALLOCATION CHARGE

This is a premium-based charge. After deducting this charge from your premiums, the remainder is invested to buy units. The tables below give the percentage of your premium that is used to buy units. This percentage depends on the size of the premium, the year of allocation, the premium frequency of the policy and the premium payment method.

If you pay any of your premiums by a method other than ECS/SI<sup>#</sup> the percentage applied is the **Normal Allocation Rate**. Whenever a premium is paid through ECS/SI there is a substantial cost savings for the company. We wish to pass on the benefits of these savings to you, in the form of higher Allocation Rate. Hence if you pay any of your premiums by ECS/SI then the percentage applied would be the **ECS Allocation Rate**.

The **Normal Allocation Rates** and **ECS Allocation Rates** are guaranteed for the entire duration of the policy term.

# ECS – Electronic Clearing System, SI – Standing Instructions

#### TERMS & CONDITIONS

We recommend that you read this brochure & benefit illustration before you purchase. This product brochure is indicative of the terms, warranties, conditions & exceptions contained in insurance policy. Please refer to the policy document for more details. We have appointed Certified Financial Consultants, duly licensed by IRDA, who will explain our plans to you and advise you on the correct insurance solution that will meet your needs.

#### A) Unit Prices:

We will set the unit price of a fund as per the IRDA's guidelines. The unit pricing shall be computed based on whether the company is purchasing (appropriation price) or selling (expropriation price) the assets in order to meet the day to day transactions of unit allocations and unit redemptions.

- Appropriation price shall be computed as: Market value of investment held by the fund plus the expenses incurred in the purchase of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any new units are allocated), gives the unit price of the fund under consideration.
- Expropriation price shall be computed as: Market Value of investment held by the fund less the expenses incurred in the sale of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of units existing at the valuation date (before any units are redeemed), gives the unit price of the fund under consideration.

We round the resulting price to the nearest Re. 0.0001. This price will be published on our website and leading national newspapers.

#### B) Exclusions:

- No death benefit will be paid if the death has occurred directly or indirectly as a result of suicide within one year of the date of commencement or the date of issue or date of revival of the policy, whichever is later. However, in such circumstances, the value of the units held on the date of intimation of death will be paid out and the policy will terminate.
- We will not pay Critical Illness Benefits if the critical illness has occurred within 6 months of the date of commencement or date of issue or date of revival of the policy whichever is later. We may not pay Critical Illness Benefits if we do not receive a duly completed claim form within 26 weeks of the illness, disability, operation or other circumstances giving rise to the claim.

For a very large transaction above a threshold level, in order to maintain equity and fairness with all unit holders, we may choose to apply special treatment for all transactions, which involve purchase or sale of underlying assets. The number of units allocated may reflect the expenditure incurred in the actual market transactions, which occurred. The value of units obtained from encashment may be the actual value obtained as a consequence of the actual market transaction, which occurred. Transactions may occur over a number of days. The threshold level will vary from time to time, depending on, amongst other matters, the liquidity of the stock markets. Our current threshold for large transactions will be Rs. 50,000,000 for a fund predominantly investing in Government Securities and Rs.25,000,000 for a fund investing in highly liquid equities.

#### G) Prohibition of Rebates: Section 41 of the Insurance Act, 1938 states:

**Provided** that acceptance by an insurance agent of commission in connection with a policy of life insurance taken out by himself on his own life shall not be deemed to be acceptance of a rebate of premium within the meaning of this sub-section if at the time of such acceptance the insurance agent satisfies the prescribed conditions establishing that he is a bona fide insurance agent employed by the insurer.

Any person making default in complying with the provisions of this section shall be punishable with fine which may extend to five hundred rupees.

#### H) Non-Disclosure: Section 45 of the Insurance Act, 1938 states:

No policy of life insurance effected before the commencement of this Act shall after the expiry of two years from the date of commencement of this Act and no policy of life insurance effected after the coming into force of this Act shall, after the expiry of two years from the date on which it was effected be called in question by an insurer on the ground that a statement made in the proposal for insurance or in any report of a medical officer, or referee, or friend of the insured, or any other document leading to issue of the policy, was inaccurate or false, unless the insurer shows that such statement was on a material matter or suppressed facts which it was material to disclose and that it was fraudulently made by the policyholder and that the policyholder knew at the time of making it that the statement was false or that it suppressed facts which it was material to disclose.

Provided that nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.

#### I) Service Tax & other duties:
